

# BAK XIII

## TECHRIDER

### VIDEO:

Video is a big part of the show, we could provide a beamer and a screen.

If you have some already installed, we will use yours.

Cable needed if we use your system: VGA sub-D.

### SOUND:

We only need one DI, and a few cables, no microphones or stands.

We need three monitors and two monitor channels. (side fills are welcome if available)

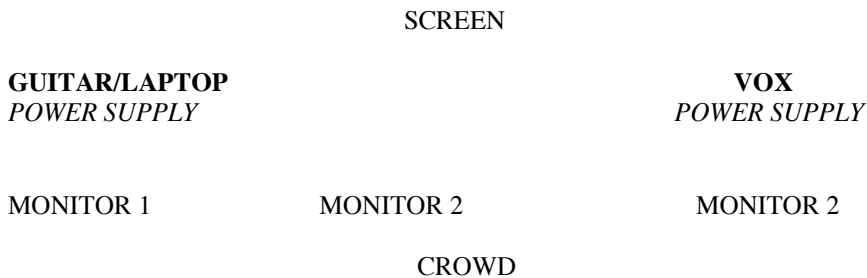

BAK XIII play electro based music, so PA with good bass and powerful enough will be essential.

30 minutes are needed for soundcheck (minimum).

### PATCH

1	LAPTOP LEFT	DI BOX (provided)
2	LAPTOP RIGHT	DI BOX (provided)
3	GUITAR LEFT	XLR
4	GUITAR RIGHT	XLR (optional)
5	VOX (Vocoder)	DI BOX

### STAGE PLAN

### POWER:

Power supplies are needed left and right of the stage for musical backline. (230v with earth)

BAK XIII uses a beamer, the beamer's power supply has to be connected on the same channel than the musical backline to avoid electrical noise.

Euro 32amp on stage for light.

### LIGHT:

We only need a euro 32amp 3 phased and fused on stage.

We'll provide:

6 channels-dimmer, 4 lasers, 8 beacons, 7 leds-ramps, 4 black-light fluorescent tube, 2 par 56 with stands, a fog machine and our own desk.
